

Therapist Intern | Xenia Group

About Xenia Group

Xenia Group is a Therapy Practice focused on healing the individual, family and supporting the community. We provide therapy for Individual, Couples, Families and Groups. We work to create workshops and other resources as the needs arise. The Xenia Group is established not only to support the clients we work with, but also the therapists and staff that provide essential services to the community. We strive to support the employees who work to make our clients feel safe and understood.

About the role

This position will entail therapy work with Individuals and potentially Couples, Families and Groups. Therapy Interns will work to have basic therapeutic skills supported through regular Supervision by experienced licensed therapists. They will be given opportunities to further their knowledge of different populations and modalities through provided trainings and training scholarships. Xenia will work to ensure Graduate School Expectations are being met. The position will report to the Directors of the Practice, specifically the Director with the responsibility of Internship overview. Pay will be starting at a competitive rate with the option of raises once graduated. Interns will be given additional guidance after graduation to help ensure they work to gain their License. Directors will be working to provide additional benefits as the practice grows and as therapist caseloads become more consistent.
